

WHAT IS CLAIMED IS:

1. A molding composition comprising
  - 5 A) 40 - 95 parts by weight (in relation to 100 parts by weight of the total composition) of aromatic polycarbonate and/or polyester carbonate
  - 10 B) 0 - 45 parts by weight (in relation to 100 parts by weight of the total composition) of (co)polymer based on vinyl monomers
  - C) 1 - 25 parts by weight (in relation to 100 parts by weight of the total composition) of silicone acrylate graft rubber and
  - 15 D) 0.4 - 40 parts by weight (in relation to 100 parts by weight of the total composition) of mineral filler.
2. The composition according to Claim 1, in which component C is prepared by graft polymerization of aromatic alkenyl compounds and a vinylcyanide onto a composite rubber that contains a polyorganosiloxane rubber component and a polyalkyl(meth)acrylate.  
20
3. The composition according to Claim 1, wherein component B is a (co)polymer of at least one monomer selected from the group consisting of vinyl aromatics, vinyl cyanides, methacrylic acid-(C<sub>1</sub>-C<sub>8</sub>)-alkyl esters, unsaturated carboxylic acids and derivatives of unsaturated carboxylic acids.  
25
4. The composition according to Claim 1, wherein component B is a copolymer of
  - 30 B.1 from 50 to 99 parts by weight (in relation to 100 parts by weight of B) of vinyl aromatics and/or methacrylic acid-(C<sub>1</sub>-C<sub>8</sub>)-alkyl esters and

B.2 from 1 to 50 parts by weight (in relation to 100 parts by weight of B) of a member selected from the group consisting of vinyl cyanides methacrylic acid-(C<sub>1</sub>-C<sub>8</sub>)-alkyl esters, unsaturated carboxylic acids and derivatives of unsaturated carboxylic acids.

5

5. The composition according to Claim 1 further containing 1 to 30 parts by weight of a mineral filler.

10 6. The composition according to Claim 1 further containing at least one member selected from the group consisting of glass fibers, glass spheres, mica, silicates, quartz, talc, titanium dioxide and wollastonite.

15 7. A method of using the composition according to Claim 1 comprising molding an article.

8. The article prepared by the method of Claim 7.

9. A molded article comprising the composition of Claim 1.
